PROFILE

Computer Science student specializing in Software Technology with hands-on experience in XR application development, interactive systems, and web-based projects. Strong foundation in programming, software development workflows, and collaborative project work. Seeking a software development internship to apply technical skills and gain industry experience.

ACADEMIC PROJECTS

DrumXRoll: Exploring XR Piano Roll in Teaching Drum Improvisation

2024 – Present

Thesis Project | Unity, C#

- Designed an XR-based interactive drumming system using Unity and C#, featuring piano roll visualization, immersive 3D feedback, and guided learning sequences for drum improvisation.

Beneficiary Record Management for Las Piñas Persons with Disability Federation Inc.

2023 – 2024

Course Project | Web Development

- Developed a responsive web-based record management system to help the organization efficiently track, update, and organize beneficiary information. Implemented CRUD functionalities, authentication, and user-friendly interfaces using HTML, CSS, and JavaScript.

SKILLS
